

TAHS School Schedule/COVID-19 Student Survey

221 responses

[Publish analytics](#)

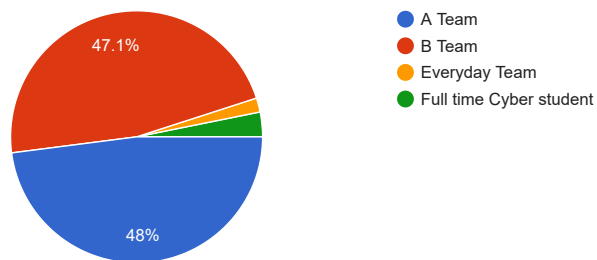

What class are you in?

221 responses

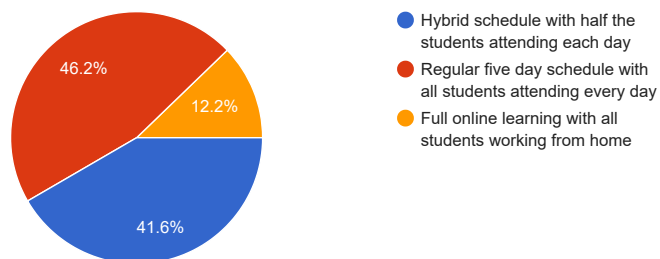

What "Team" are you on?

221 responses

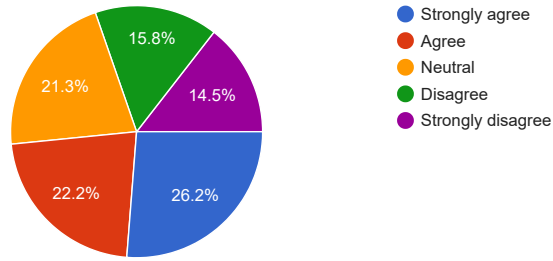

Which instructional model would you prefer the high school to use right now?

221 responses

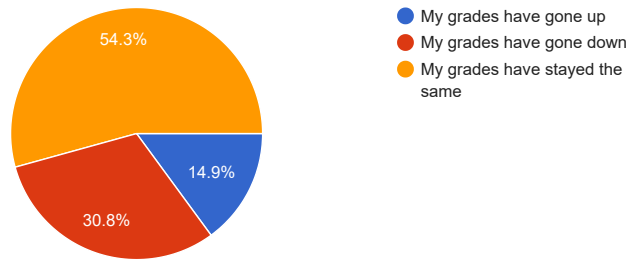

The hybrid schedule has made academics more difficult for me personally.

221 responses

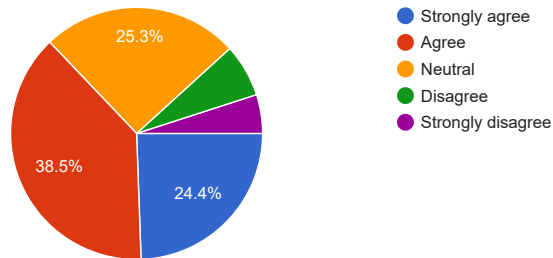

How have your grades been since the hybrid schedule has been implemented?

221 responses

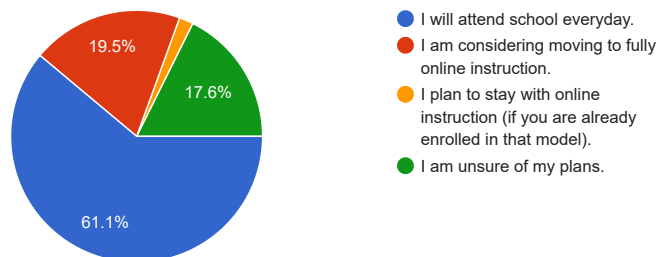

Teachers are doing a good job dealing with the situation and adapting their classrooms and lessons to deal with the situation.

221 responses

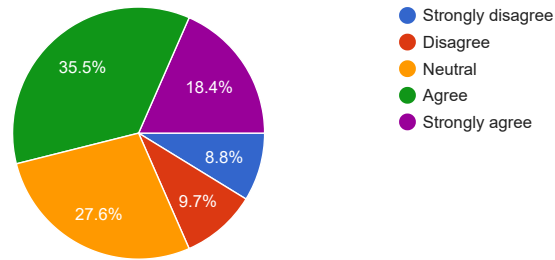

If the school returns to full-time instruction, what is your personal preference?

221 responses

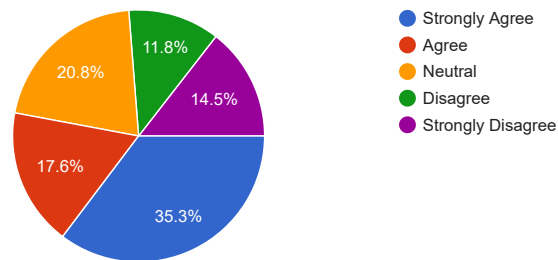

The school is doing enough to keep the community safe from the spread of COVID-19.

217 responses

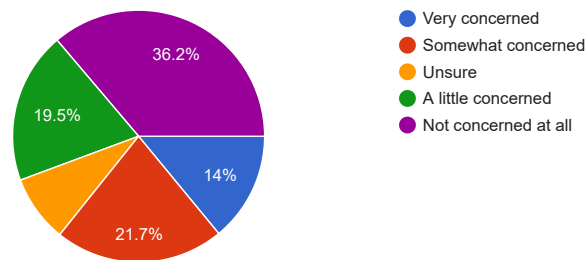

Students and teachers should continue to wear masks and/or face shields in the building.

221 responses

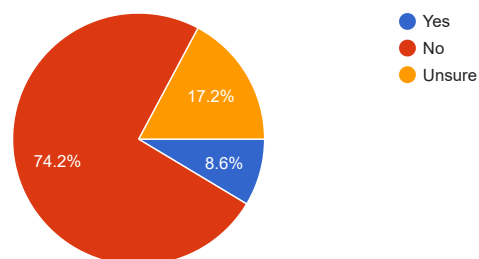

What is your level of concern about contracting the coronavirus at school?

221 responses

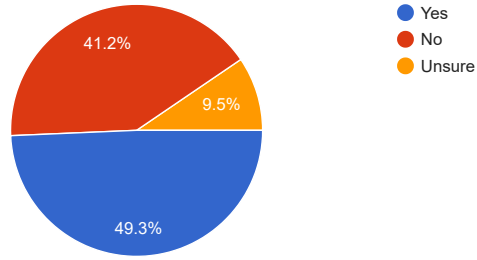

Do you have any risk factors or preexisting conditions that make you prone to serious complications from COVID-19?

221 responses

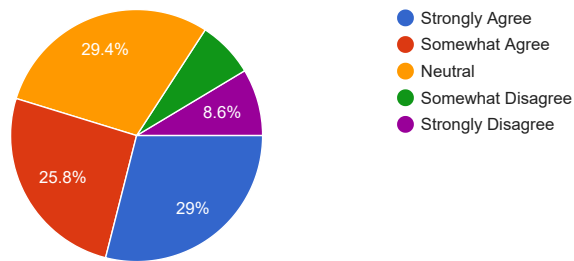

Do you live with anyone who has a risk factor or preexisting condition that makes them more prone to serious complications from COVID-19?

221 responses

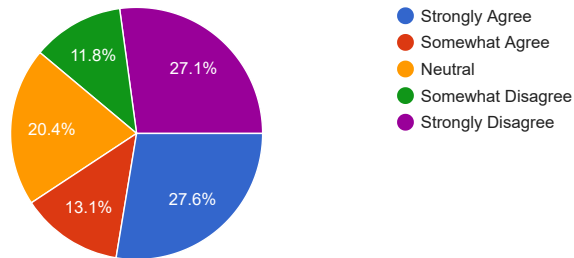

I feel safe from COVID-19 with the hybrid schedule.

221 responses

I would feel safe from COVID-19 if the high school returns to full-time learning.

221 responses

What are some of the pros and cons of the hybrid schedule? (optional)

147 responses

N/A

Definitely it makes it harder since we have so many more assignments and harder to grasp the lessons but it keeps everyone safe

I mean I feel like I'm not really learning that much. All we really do at home is review or read out of a book.

pros - some is online cons- harder to balance between online and regular

A pro is the teachers can concentrate on you more in class because there is less students.

A con is when you message a teacher they don't get back you right away, but that is because they also have a class in school.

Pros - You Get a "Break" for Two Days

Cons -

Disorganized

Do you think the school should continue to use a hybrid schedule? Why or why not? (optional)

163 responses

yes

Yes then we can still get in school help while keeping all party's safe

I don't really care.

I think the school should either continue hybrid since that is now what everybody is getting used to or go fully online.

Yes, I think hybrid schedule should continue. Why I think this is because it is personally easier for me and I think less bullying happens.

They should not use hybrid because it is more confusing than either going fully back or fully online. Tyrone had three options and they picked the worst one. Also, students are not as worried about it as you think.

No, I do not think that we should continue to use a hybrid schedule. Although I appreciate being able to sleep in more on the days I don't have school, I believe it

If we go back to full-time instruction, what are your concerns? (optional)

147 responses

none

None

Nothing

I Mean someone's going to get COVID

I don't have any, but my mom probbaly will.

Getting adjusted to that again. Having grades drop from the going back full time.
COVID becoming a big thing again.

Bullying will rise.

Nothing

Some of mv concerns if we were to ao back full time would be that the teachers would

What would you like the school board or administration to know about the current situation as it relates to the pandemic? (optional)

114 responses

N/A

Nothing

I think it is helping as we haven't had any cases at out school.

nothing

IDK

Let's just go back full time.

For our little town specifically, we are not being affected as much. Some schools in the larger cities are being affected more because they are around different people all of the time, while we are around the same people constantly. If we continue to take the precautions we are now, I see no reason to not go back to full time in school learning.

Only 400 people under the age of 24 have died from corona virus in the US.
